About Long Ridge Energy and Power LLC:

Long Ridge Energy and Power LLC owns and operates a site consisting of over 1,600 acres along the Ohio River in Southeastern Ohio. Through its subsidiary LRE, LREP operates a 485 MW combined cycle power plant serving the PJM grid and drills and operates natural gas wells in Southeastern Ohio and West Virginia. A large portion of natural gas produced is used in the operation of the power plant. In addition, LREP is developing additional opportunities on its property to site and serve data centers either through the PJM grid or with co-located behind-the-meter power. LREP also uses its Ohio River access to serve businesses needing commodity transloading and storage.
